Address: Naruli, Bogura

CAREER OBJECTIVES

I am looking for an opportunity to connect myself with an organization that can help me in enhancing my skills, strengthening my knowledge and realizing my potential. I am willing to explore a wide variety of opportunities that can help me gain perspective.

EDUCATIONAL QUALIFICATION

- Bachelor of Science
Computer Science & Software Engineering
American International University-Bangladesh
Result: 3.32 out of 4.00 (Graduation at January 2022)
- Higher Secondary Certificate (HSC)
Science Department
Govt Azizul Haque College, Bogura
Result: 4.58 out of 5.00 (Graduated at 2017)
- Secondary School Certificate (SSC)
Science Department
Bogra Zilla School, Bogura
Result: 5.00 out of 5.00 (Graduated at 2015)

PROJECT ACCOMPLISHED

- Wrote and executed **Test Cases** for AIUB system.
- Developing a **Test Cases** for Restaurant Management System.
- Developed a **Software Development Project Management Plan**.
- Developed "**Library Management System**" using Java (IDE: notepad++)
- Developed "**Travel Agency Management System**" using C# (IDE: Visual Studio)
- Developed "**Restaurant Management System**" using – C#, .NET Framework; (IDE – Visual Studio)

SOFTWARE PROJECT

Restaurant Management System

The “**Restaurant Management System**” is an application, which will make day to day operations of a restaurant less time consuming and much easier. The Restaurant Management System is intended for implementing a system so that the restaurant owner can easily manage and keep an eye on the day-to-day operations of the restaurant even without being on the premises of the restaurant. The admin has the maximum control over the system as the admin can view employee attendance, hire employees and also modify employee details. The admin can also view stock details and also modify them. The admin will be able to check accounts. Lastly, the admin can also view the customer orders and their status. This system will make it much easier for the admin to keep an eye on what's happening in the restaurant without actually being physically present there, making it much more convenient.

The software is developing under the supervision of.

ABHIJIT BHOWMIK

Associate Professor

Department of Computer Science

American International University-Bangladesh

SKILLS

- Language: Bangla (Native), English.
- Programming Language: C, C++, Java, C#
- Web Development: Php
- Web Design: HTML5, CSS3
- Frameworks: Bootstrap, .NET Framework, Laravel
- Database Skill: Mysql, Oracle, Mssql.
- Office Pack: Ms Word, Ms Excel, Ms PowerPoint.
- Software: Adobe Photoshop, Adobe Illustrator.

INTEREST

- Software Testing.
- Virtual Reality.
- Artificial Intelligence.
- Game testing.

PERSONAL SUMMARY

- A good understanding of the **software development**.
- Expert in designing, developing **software** based on the requirements.
- Sound knowledge on writing **Test Plan** based on the requirements and functionalities of a system.
- Expert in designing, writing and executing **Test Cases** and preparing bug report.
- Strong problem-solving skills.
- Capable of learning new tools and technology very quickly.
- Able to work under pressure to meet tight deadlines.
- Hardworking, punctual and a good team player.
- Responsible, Dependable, Self-directed and self-motivated.
